Offering Exterior Building Materials

Conventional...Or...longer lasting, energy efficient Roofing?

Our specialty is the metal roof. You have numerous advantages when using a metal roof over a conventional shingle. Plus, there are a lot of choices both in styles and colors to choose from. Ask about our "Green", energy efficient metal roofing. Please call one of our metal specialists for more information and to answer your questions.

If you want an asphalt roof we can deliver your materials to your rooftop, typically within 3 days of your order - 3 day delivery within 75 miles of Taylor, AZ., which also applies to some of our metal options. We carry one of the best, if not the best, laminated asphalt shingle on the market today in the Owens Corning 30 and 50 year Duration shingles which are rated 110 and 130 mph, 9 colors in stock.
